

CONNECTING THE FUTURE

TURNING TO THE NEXT GENERATION

POWER TRACK

THE WORLD'S MOST ADVANCED POWER OUTLET SYSTEM

MX-MDR TECHNOLOGIES LIMITED, is a pioneer in manufacturing best quality Audio and Video Products in India, established by a highly ambitious entrepreneur Mr. Mukesh Panjwani. MX offers a gigantic range of over 5000 high quality Products at very reasonable rates. All our products are well known in the market under our Brand Name of "MX" and are in huge demand due to our Excellent Quality, Reliable Service and Timely Delivery and Reasonable Price.

MX HAS ADOPTED 5 PRINCIPLES AS FOLLOWS :

QUALITY : All design and manufacturing processes are strictly controlled in our Quality Control department. Our Engineering Center continually evaluates new materials and their potential use in our designs. We also test virtually every Cable and Connector attribute. Quality is taken seriously in MX.

SERVICE : MX believes in the value of educating our customers, not just selling a products. Our friendly, knowledgeable support team is always ready to assist you with product information or application questions, technical support and system design advice. This highly trained team will provide you with any resources needed to support you and help you in simplifying your task.

RELIABILITY : MX has worked hard to be the most reliable brand in electronics products & accessories in India. MX works hard to get best quality for their customers, so that they face no problems during installations or reselling of the products.

ADAPTABILITY : MX is ready to adopt new & right international standards, techniques and technologies. Without adaptability no one is complete as there is continuous growth in International electronic product development.

INNOVATION : Innovation is a way of doing something new. MX believes in developing the product with Quality Reengineering, also MX applies new ideas successfully in practice. Through innovation & new ideas MX is still improving its efficiency, productivity & quality.

Today MX has worked hard to be one of the leading brands in India to provide great quality products with apt price & fast service. We are thriving to add more distributors to our existing network in India as well as worldwide.

POWER TRACK

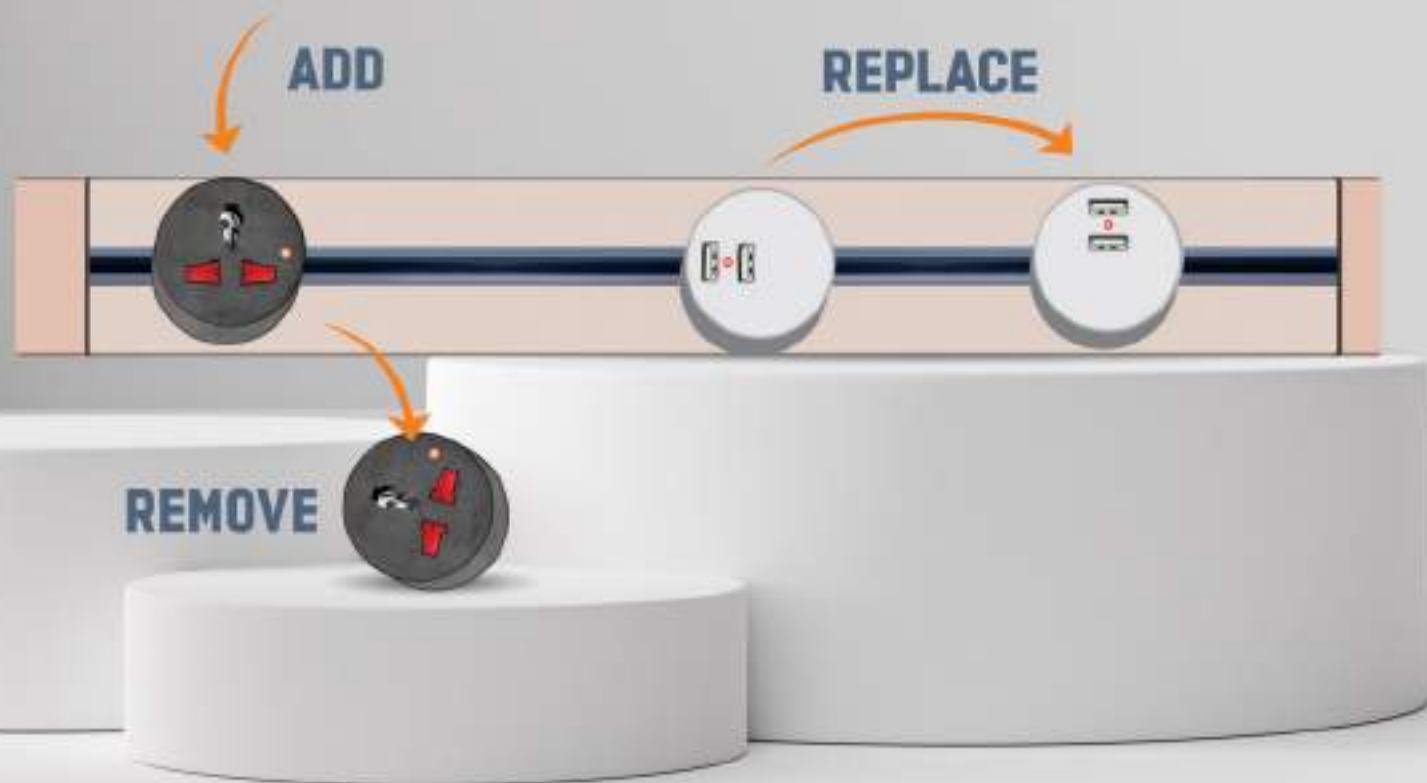

THE WORLD'S MOST ADVANCED POWER OUTLET SYSTEM

- ✓ Elegance and Sophistication
- ✓ Freedom and Convenience
- ✓ Safety and Durability
- ✓ Advanced Technology
- ✓ Premium Design
- ✓ Durable Build Quality
- ✓ Connected and Integrated
- ✓ Home and Office
- ✓ Form and Function
- ✓ International Socket
- ✓ Multimedia Accessories
- ✓ Modular Terminals

CONNECTING THE FUTURE

The MX Power Track is an advanced panel system that supplies power, data and various additional services. The Power Track technology incorporated into the panel allows users to plug in, remove and reposition devices anywhere along the track, offering maximum convenience and flexibility.

The MX Power Track can be customized to suit the unique needs of Hotels, Homes, Offices, Hospital and the streamlined design of the panel ensures easy maintenance and improved hygiene.

NO LIMITS

Add and remove plugs anywhere on the track, at any time, with a simple push and turn. Never search for an extra power outlet again.

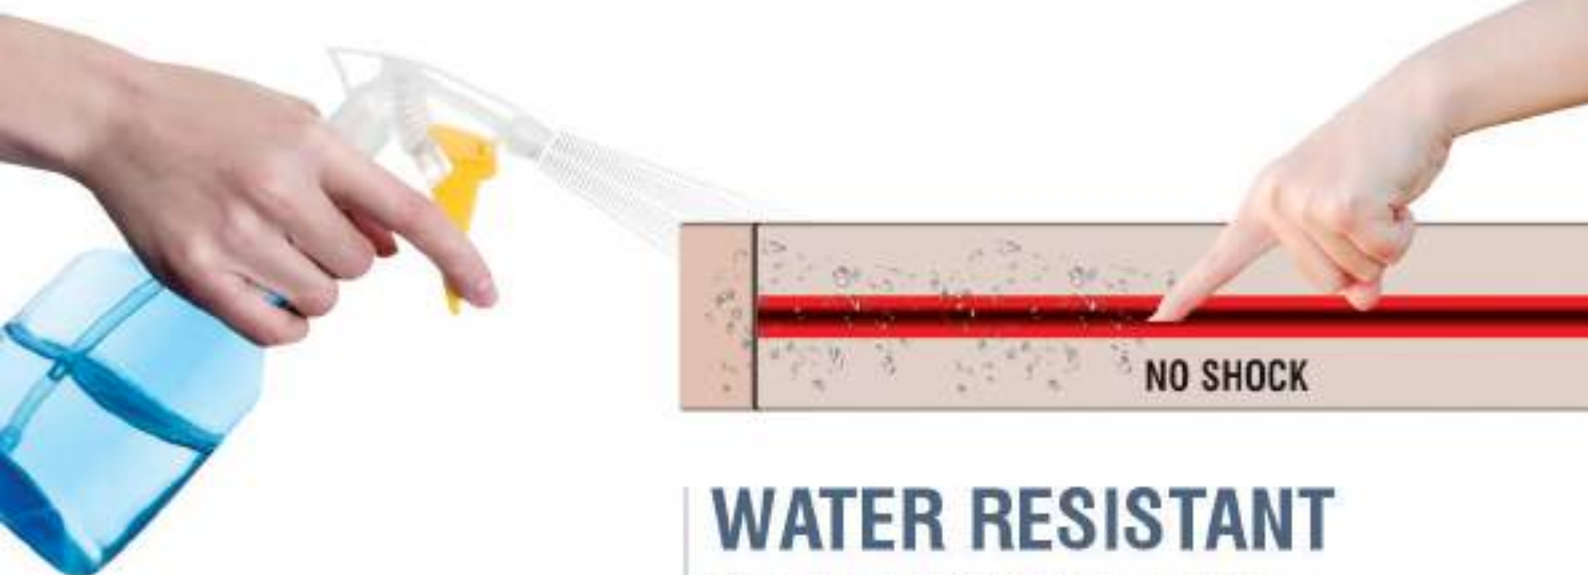

SIMPLY PUSH AND TURN

CONNECTING THE FUTURE

POWER TRACK & ADAPTORS

WATER RESISTANT

MX power track is water resistant and shock proof with a simple push and turn. Never search for an extra power outlet again.

WiFi CONNECTED

MX power track is ready for next generation with wifi technology. Introducing the MX SMART POWER TRACK Remotely switch on/off, program schedules and timers while monitoring and logging power consumption. A world first for power tracks to have full smart and IoT features embedded in one seamless power track unit.

- Smart Track Switch
- Smart Scene Modes
- Live Power Consumption Monitor
- Smart Scheduling
- Smart Timer
- Power Consumption Monitoring chart
- Power Saver

CONNECTING THE FUTURE

SURGE PREVENTION MODULE

By breaking into the power line, the instantaneous over-voltage of the signal transmission line is limited to the voltage range that the device or system can withstand, or a powerful lightning current is discharged into the ground to protect the protected device or system from impact and damage.

HIGH TEMPERATURE FLAME RETARDANT FR-PC MATERIAL

Adaptor shell adopts PC high-efficiency flame retardant casing, preventing accidents

HIGH PRECISION COPPER CONTACTS

Strong electrical conductivity, low temperature rise, low heat passing temperature rise test

100% SHOCK PREVENTION

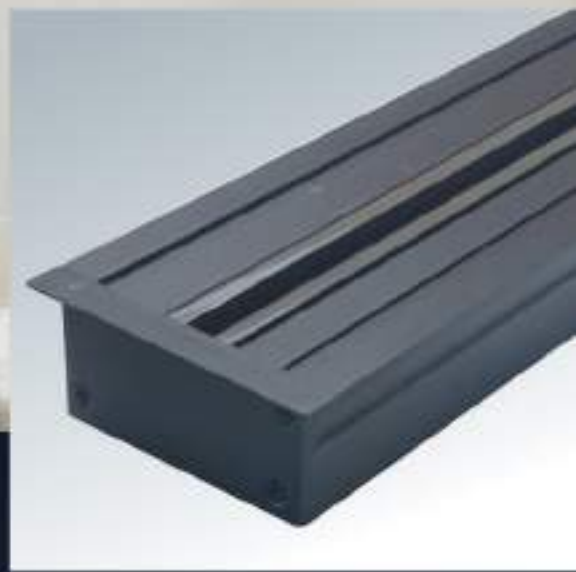

Do not worry about children mistakenly inserted finger, effectively prevent accidental electrical shock

MORE CONVENIENT

MX Power track is optional available with Left or Right side Switch

RECESS MODULAR POWER TRACK (WALL MOUNT)

Specifications :

Rated Current	: 32A—
Rated Voltage	: 220 to 250V~
Operating Temperature	: -5°C to 40°C
Frequency	: 50/60Hz
Relative Humidity	: 0% to 95%
Environmental Characteristic	: Indoor Use
Fire Resistance	: UL94 HB
Water Resistance	: IP3X

Materials :

- Extruded Aluminium Enclosure
- Machined Copper Alloy Connectors
- Pure Annealed Copper Busbar
- Modified Polyphenylene Ether Insulation
- Polycarbonate (PC) Terminal Structures
- PC Polycarbonate Terminal Structures
- Polycarbonate (PC) Terminal Housing
